STUCCO PLASTER

“Engineered for Flawless Walls.”

ROCKSTAR STUCCO PLASTER

Rockstar® Stucco Plaster is a ready-mix cement based polymer modified thin plaster designed for smooth finishing of interior and exterior walls. It contains graded sand, cement and special additives for better bonding, smooth finish and faster application. Suitable for brick walls, AAC blocks and concrete surfaces.

FEATURES & BENEFITS

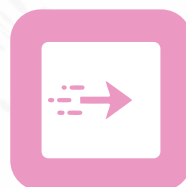

High Bond Strength

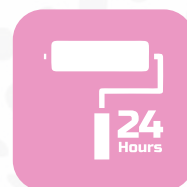

Uniform Smooth Finish

Thin Layer Application

Fast Application

Ready for Paint in 24 hrs

APPLICATION STEPS

Clean the surface

Lightly wet the surface

Mix with 20-30% clean water

Apply using a steel trowel

Spread evenly (3-6 mm thickness)

AREAS OF APPLICATION

- Interior wall plastering • Exterior wall finishing • Brick masonry walls • Concrete surfaces
- AAC / Block walls • Columns and beams finishing

TECHNICAL INFORMATION

Sr.	Name of Test	Result/Observations
1	Bulk Density	1450-1550 Kg/m ³
2	Water Powder Ratio	25% - 30%
3	Pot Life	Approx 120 Minutes @ 27 ° C
4	Compressive Strength 28 day	5 - 6 N/mm ²
5	Coverage	Approx. 60sq.ft per 25 kg bag (3 mm thickness)
6	Layer Thickness	3 - 6 mm
7	Water Curing	Not Required
8	Adhesion Strength	-0.8 N/mm ²
9	Water Absorption	Low

COVERAGE

- For AAC/CLC blocks 3-6 mm thk. - Covers 58- 60 sq.ft. (approx).

SHELF LIFE & STORAGE

Shelf life is 6 months from the date of manufacturing in packed bags. Store the material in cool, dry and shaded place.
